DETAILED ACTION

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 26, "the pressure generating module" (line 4) lacks antecedent basis. Shouldn't "generating module" read --source--?

As to claim 26, note was made of the combination of lines 7-8 in combination with remaining claim limitations, as none of the references suggest adjusting at least one valve to achieve a desired pressure differential. As to claim 27, note was made of the combination of lines 10-11 with remaining claim limitations for the same reason as down with claim 26.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
